About CMTI

'Central Manufacturing Technology Institute' (CMTI) is a Research & Development organization focusing on providing 'Technology Solutions' to the manufacturing sector and assisting technological growth in the country. CMTI plays a key role in applied research, design and development (RD&D), technology forecasting, assimilation and dissemination of manufacturing technology to Indian industries.

CMTI is a registered Government of India Society, an autonomous institution under the administrative control of the Ministry of Heavy Industries, Govt. of India, governed by a Governing Council which has representation from the machine tool manufacturing and user industries, the Union Government and the Government of Karnataka. The Governing Council evolves policies and monitors policy deployment. A Research Advisory Board (RAB), a Technical Committee with representatives from industries and academia, assists the institute on matters relating to technology advancement.

The Stakeholders of CMTI are –

- Government of India
- Industries at large in all sectors (both private and public) - specifically manufacturing and user industries

CMTI over the last five decades developed Special Purpose Machines, Inspection Systems, Test Rigs for Qualification testing of products, Tooling, complex machined parts for public and private sectors.

CMTI has continuously aligned its facilities and expertise with the fast changing technology in thrust areas of manufacturing to support and serve the manufacturing sector. Nanotechnology, Precision engineering, Metrology (Micro and Nano), Additive Manufacturing, Mechatronics, Vision & Image processing, Digital Design, Product Lifecycle Management (PLM) and Human Resource Development (creating 'Industry Ready' engineers) are the current areas of focus of the Institute.
