

Name of Work: Expression of Interest (EoI) for Consultancy services for High purity Gas Distribution Project for Sensor Technology Development centre at CMTI, Bangalore

EoI no. CMTI/ESD/EoI/01/2021-22

Based on the pre-bid meeting conducted on 14.07.2021 at CMTI the following clarification are being made w. r .t the EoI document

Software compatibility- The consultant has to provide software compatible with the BMS software that is being provided right now by the building contractor. The details of software incorporated by the Building contractor will be shared to the Gas consultant at required time.

PPE requirements-The specifications of various PPE to be used during operation of gas system need to be specified by the consultant.

The types of gases with name and layout details are attached separately.

Fire fighting for gas panel and storage room-The consultant has to study and propose how to integrate the firefighting system of gas panels to existing water based connections nearby.

Participation in both Consultancy and execution of works -The agency that will be selected as consultant for this consultancy work will not be permitted to participate in the tender for supply, installation, testing and commissioning of gas distribution works.

Price evaluation- For evaluation of tender only the base value quoted will be evaluated and only GST will be paid as extra.

Charges for attending meetings:-The interested consultant **may show charges for attending combined meetings with clients and executing agency separately** and it will be paid based on the number of meeting attended. This will be applicable only after floating of tender for execution
