

Online Workshop on Advanced Material Characterization

31st January –2023 at 10:00 AM-1:00 PM

About the online workshop : . The Online workshop shall include Lectures and Video demonstration of the Characterization equipment's from the eminent Scientist and Technical staff of CMTI. This is a free online workshop for the benefit of individuals to help learning new technology and latest skills. It also provides multi disciplinary forum for the industrialists, Researchers, Practitioners and Educators to discuss the practical challenges encountered and the solution adopted in the field of Material characterization.

Key Topics

- ◆ *Optical Characterization (FTIR, Raman, & Ellipsometry)*
- ◆ *Mechanical Characterization (Nano Indentation & Micro Hardness)*
- ◆ *X-ray Diffraction (XRD)*
- ◆ *Sample preparation for Electron Microscopy*

Speakers

- ◆ **Murugan A, Scientist-C**
- ◆ **Sarmistha Dhan, Scientist-C**
- ◆ **Kumar Abhinav, Scientist-C**
- ◆ **Basavaraju U, Sr. Tech Asst**
