

International WOMEN'S DAY

11th - 12th March 2025

Promoting Women in

Science | Technology | Engineering | Mathematics

STEM drives innovation and progress, yet women remain underrepresented. Promoting women's participation fosters gender equality, enriches research, encourages diverse perspectives, and enhances technological solutions through their unique problem-solving skills, creativity, and insights.

Join our upcoming workshop, “**Promoting Women in STEM,**” to inspire future leaders, foster collaboration, and build a diverse workforce for global challenges and sustainable progress.
