

Greetings from CMTI

We are pleased to inform you that we are conducting a 05 day Non-Residential Training programme on **"Part Programming of CNC Machines", course code: 6101**

Highlights / Overview of the Program:

- **Comprehensive CNC Programming:** Develop a thorough understanding of programming for CNC lathes and machining centres, with an emphasis on FANUC and SIEMENS controllers.
- **Hands-On Application:** Engage in practical exercises that involve writing, testing, and running CNC programs directly on the machines, facilitating experiential learning.
- **Controller Proficiency:** Master the functionalities and programming nuances of FANUC and SIEMENS CNC controllers, enhancing versatility in various manufacturing settings.
- **Customization Based on Client Needs:** The course duration is five days but can be tailored to focus on specific areas of interest, ensuring alignment with organizational objectives.

Target Participants:

- **Shop Floor Supervisors:** Individuals overseeing machining operations who seek to deepen their understanding of CNC programming to enhance supervisory effectiveness.
- **Entry-Level CNC Programmers:** Professionals at the beginning of their CNC programming careers aiming to build a solid foundation in programming and machine operation.
- **Job Setters:** Technicians responsible for setting up CNC machines who wish to expand their programming knowledge to improve setup efficiency.
- **Manufacturing Professionals:** Both freshers and experienced personnel interested in refreshing or advancing their CNC programming skills to stay current with industry advancements.
